

Ligamentum II

CHAISE LONGUE: Ref. 1506

The *Ligamentum II* chaise longue is a limited-edition of 12. It has sleek and clean upholstery lines surrounded by a flowing Freeform timber frame that has been intricately handcrafted.

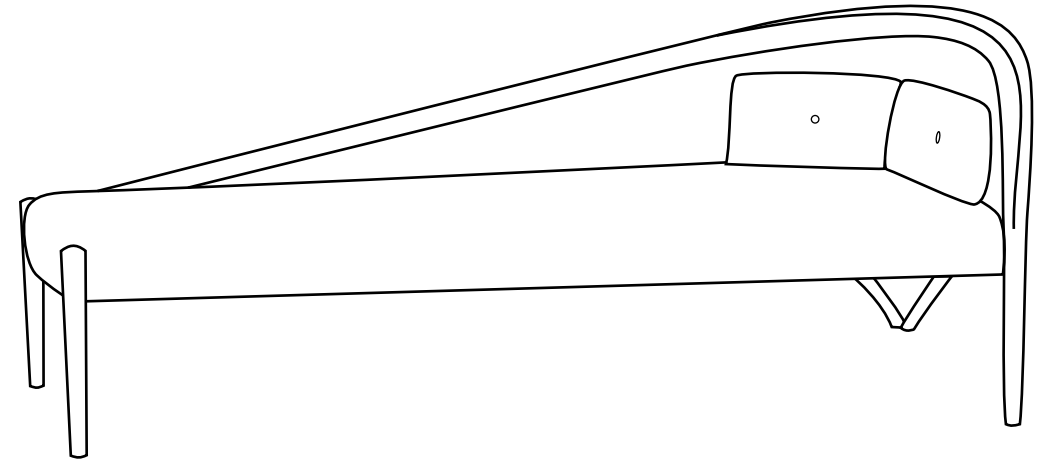

This refined, art deco inspired chaise is the epitome of chic and elegance.

Our Freeform concept can be applied to a variety of furniture types from hall tables to dining tables and chairs.

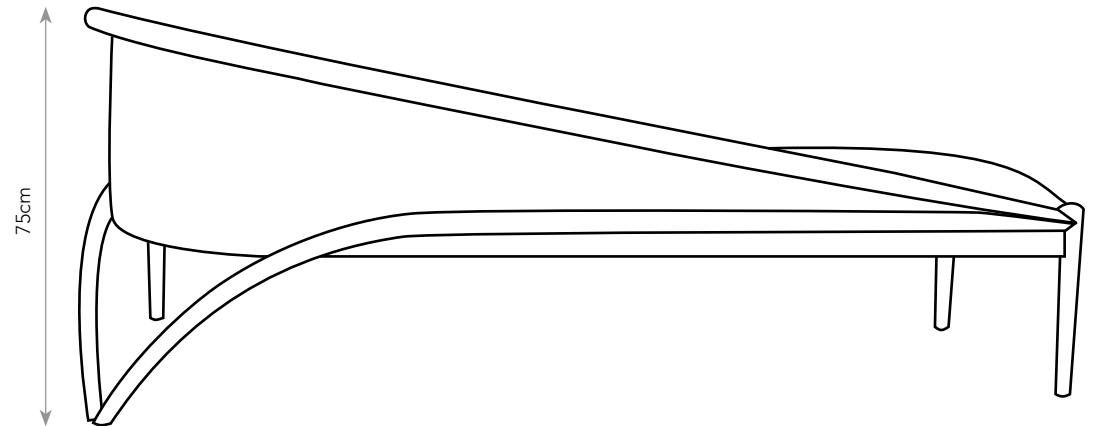

Our Freeform technique pushes laminating to its limits. The sweeping curved elements used in the construction are made from one continuous length of timber, using various moulding techniques to shape and manipulate the material. Each curved element is then finished by hand using various spokeshaves.

Please get in touch to discuss the many options available, including an extensive range of upholstery fabrics.
