

Orbis

DRINKS CABINET Ref. 1411

The *Orbis* drinks cabinet is a limited-edition of 3, and has been awarded a prestigious Bespoke Guild Mark.

Orbis embodies innovation and precision craftsmanship at its best, with its contemporary twist on Art Deco. The top of the cabinet lifts to reveal a central serving area that has a beautiful ripple carved into the corner. The doors open effortlessly to reveal curved shelves where you can store your bottles of champagne and wine.

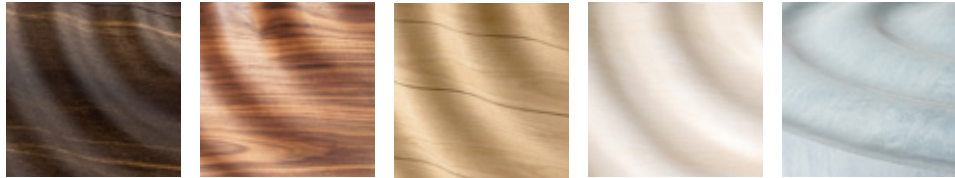

Our rippled forms are produced in-house, and made using a unique technique that has been developed and perfected by Edward Johnson.

Originally inspired by the action of a stone dropping into water. Our rippled concept can be applied to nearly any piece of furniture with any desired function, in almost any wood.

Please get in touch to discuss the many options available.
