

# Ligamentum III

CHAISE LONGUE: Ref. 1612

The *Ligamentum III* chaise longue is a limited-edition of 10. It has sleek and clean upholstery lines surrounded by a flowing Freeform timber frame.

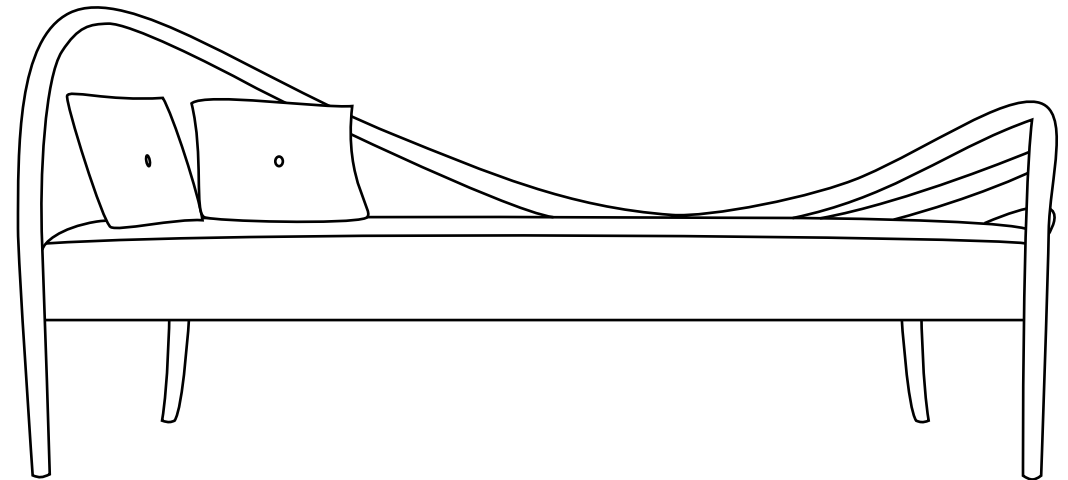

From comfort at one end to sweeping elegance at the other, the lowered back reveals a stained-glass inspired archway.

Our Freeform concept can be applied to a variety of furniture types from hall tables to dining tables and chairs.

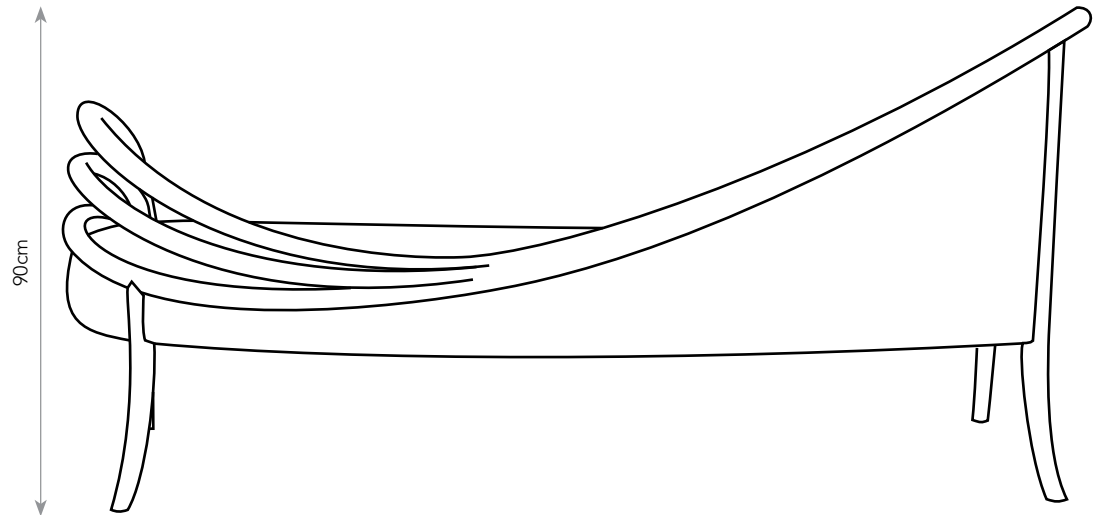

Our Freeform technique pushes laminating to its limits. The sweeping curved elements used in the construction are made from one continuous length of timber, using various moulding techniques to shape and manipulate the material. Each curved element is then finished by hand using various spokeshaves.

Please get in touch to discuss the many options available, including an extensive range of upholstery fabrics.
