

Radium

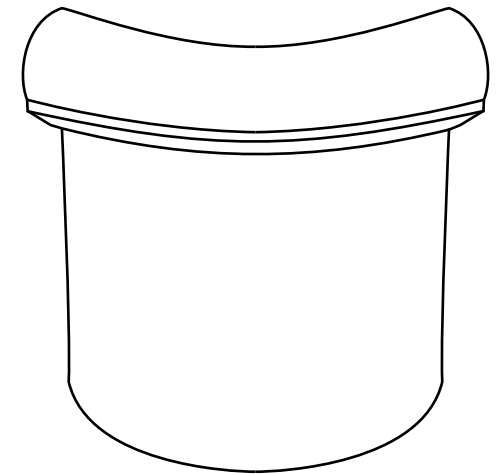

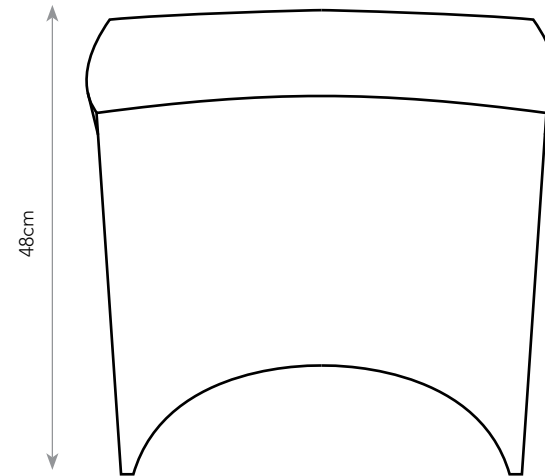

STOOL: Ref. 1508

The *Radium* stool is a limited-edition of 10. It has been designed specifically as a perching stool to be used from both sides. It is an extension of our Murano Collection, whereby hundreds of strips of timber are laminated together to form the many layers. This time stack laminated and carved and hand shaped.

The top edge of the stool blends from a shallow comfortable arc to an elegant deep curve at the base providing ultimate stability.

Timber options (many options and combinations are available)

Dimensions
56cm (w) x 48cm (h) x 35cm (d)
