

Splay

HIGHBACK & CARVER CHAIRS: Ref. 1508

The *Splay* highback and carver chairs are a limited-edition of 100. They have sleek and clean upholstery lines surrounded by a flowing Freeform timber frame.

The carver chairs are designed to be used for dining and relaxation, and beautifully complement the elegant highback dining chairs.

Our Freeform concept can be applied to a variety of furniture types from hall tables to dining tables and chairs.

Our Freeform technique pushes laminating to its limits. The sweeping curved elements used in the construction are made from one continuous length of timber, using various moulding techniques to shape and manipulate the material. Each curved element is then finished by hand using various spokeshaves.

Please get in touch to discuss the many options available, including an extensive range of upholstery fabrics.
