

Squaring the Circle

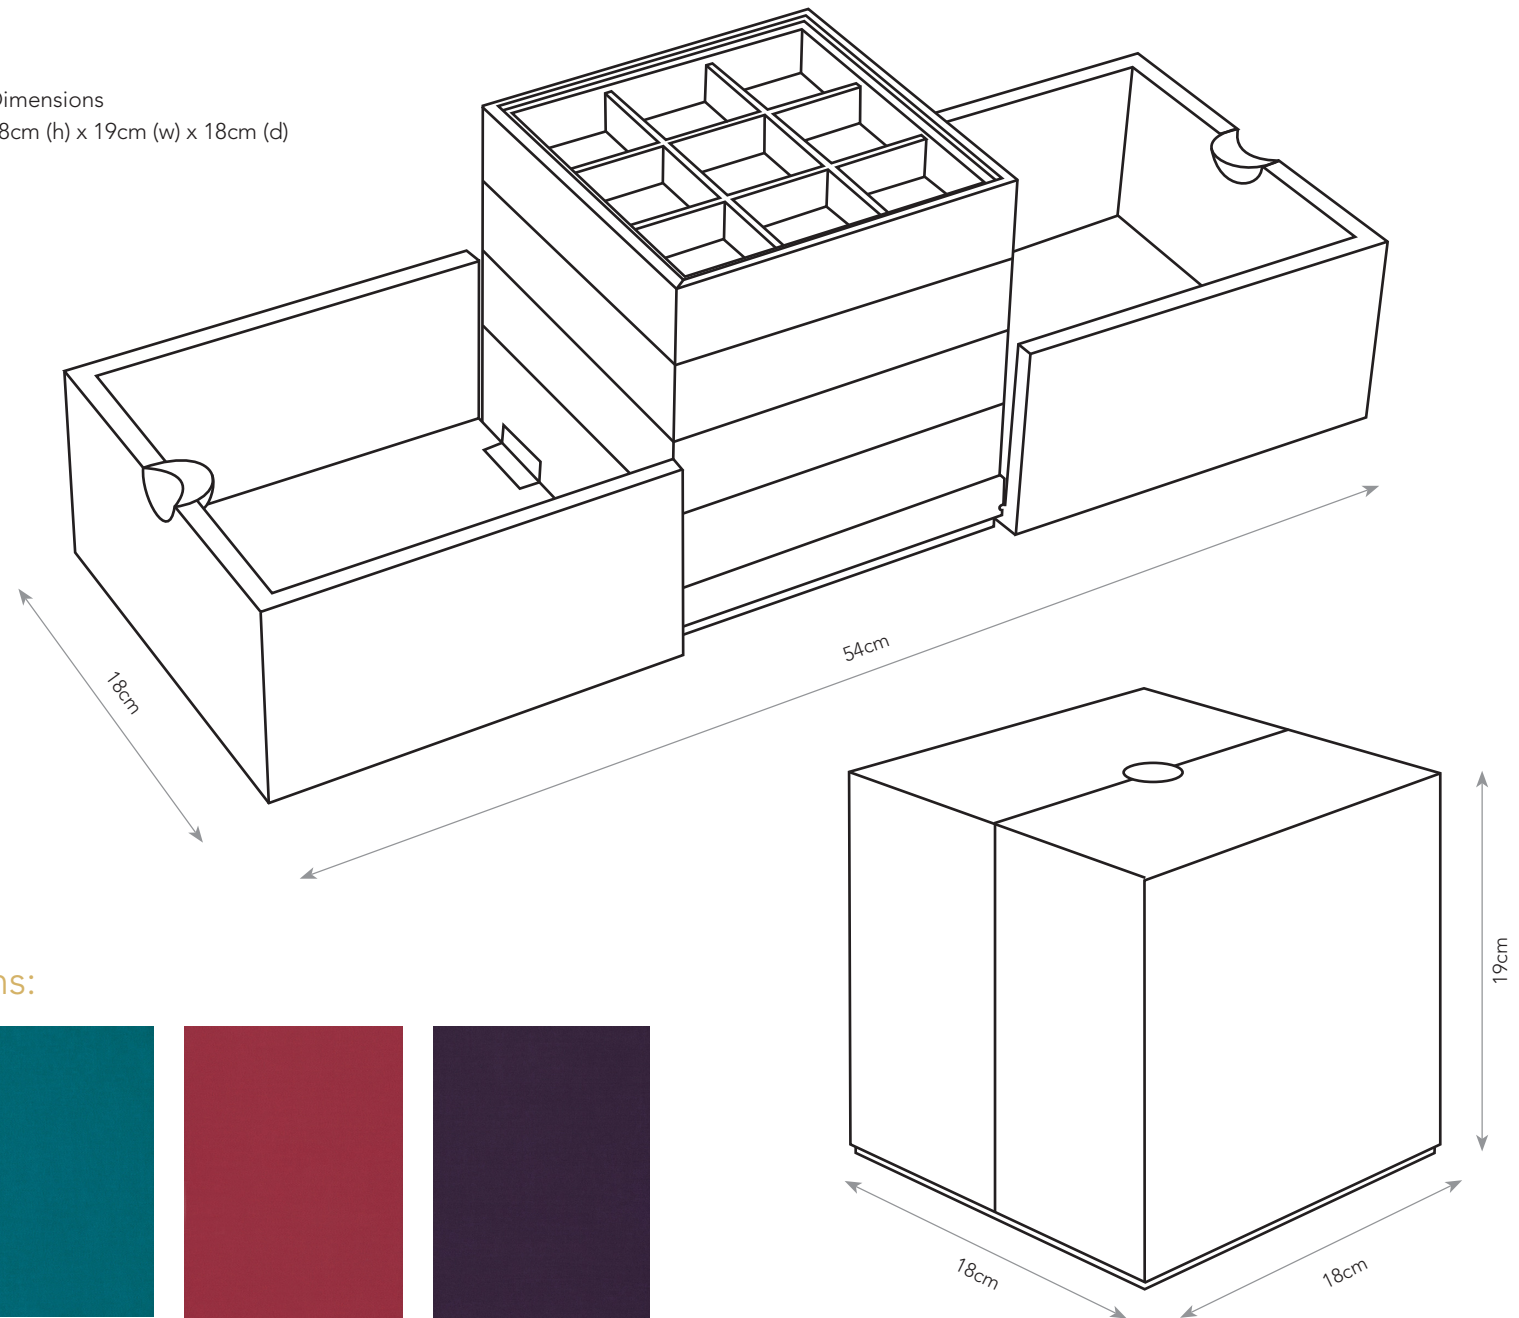

JEWELLERY BOX: Ref. 1902

The *Squaring the Circle* jewellery box forms part of our Sussex Collection and is a limited-edition of 100. It utilises our in-house Murano veneers, that are produced as circular forms on five sides of the box.

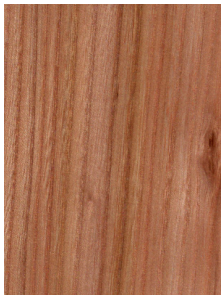

A solid turned 'dimple' is incorporated into the top, which acts as a discreet handle to fully open the two sides of the jewellery box. The interior and the four removable trays are made from solid maple that beautifully complements the elm exterior. The trays are lined with a quality suedette fabric in a choice of colours.
