

# Ellipse

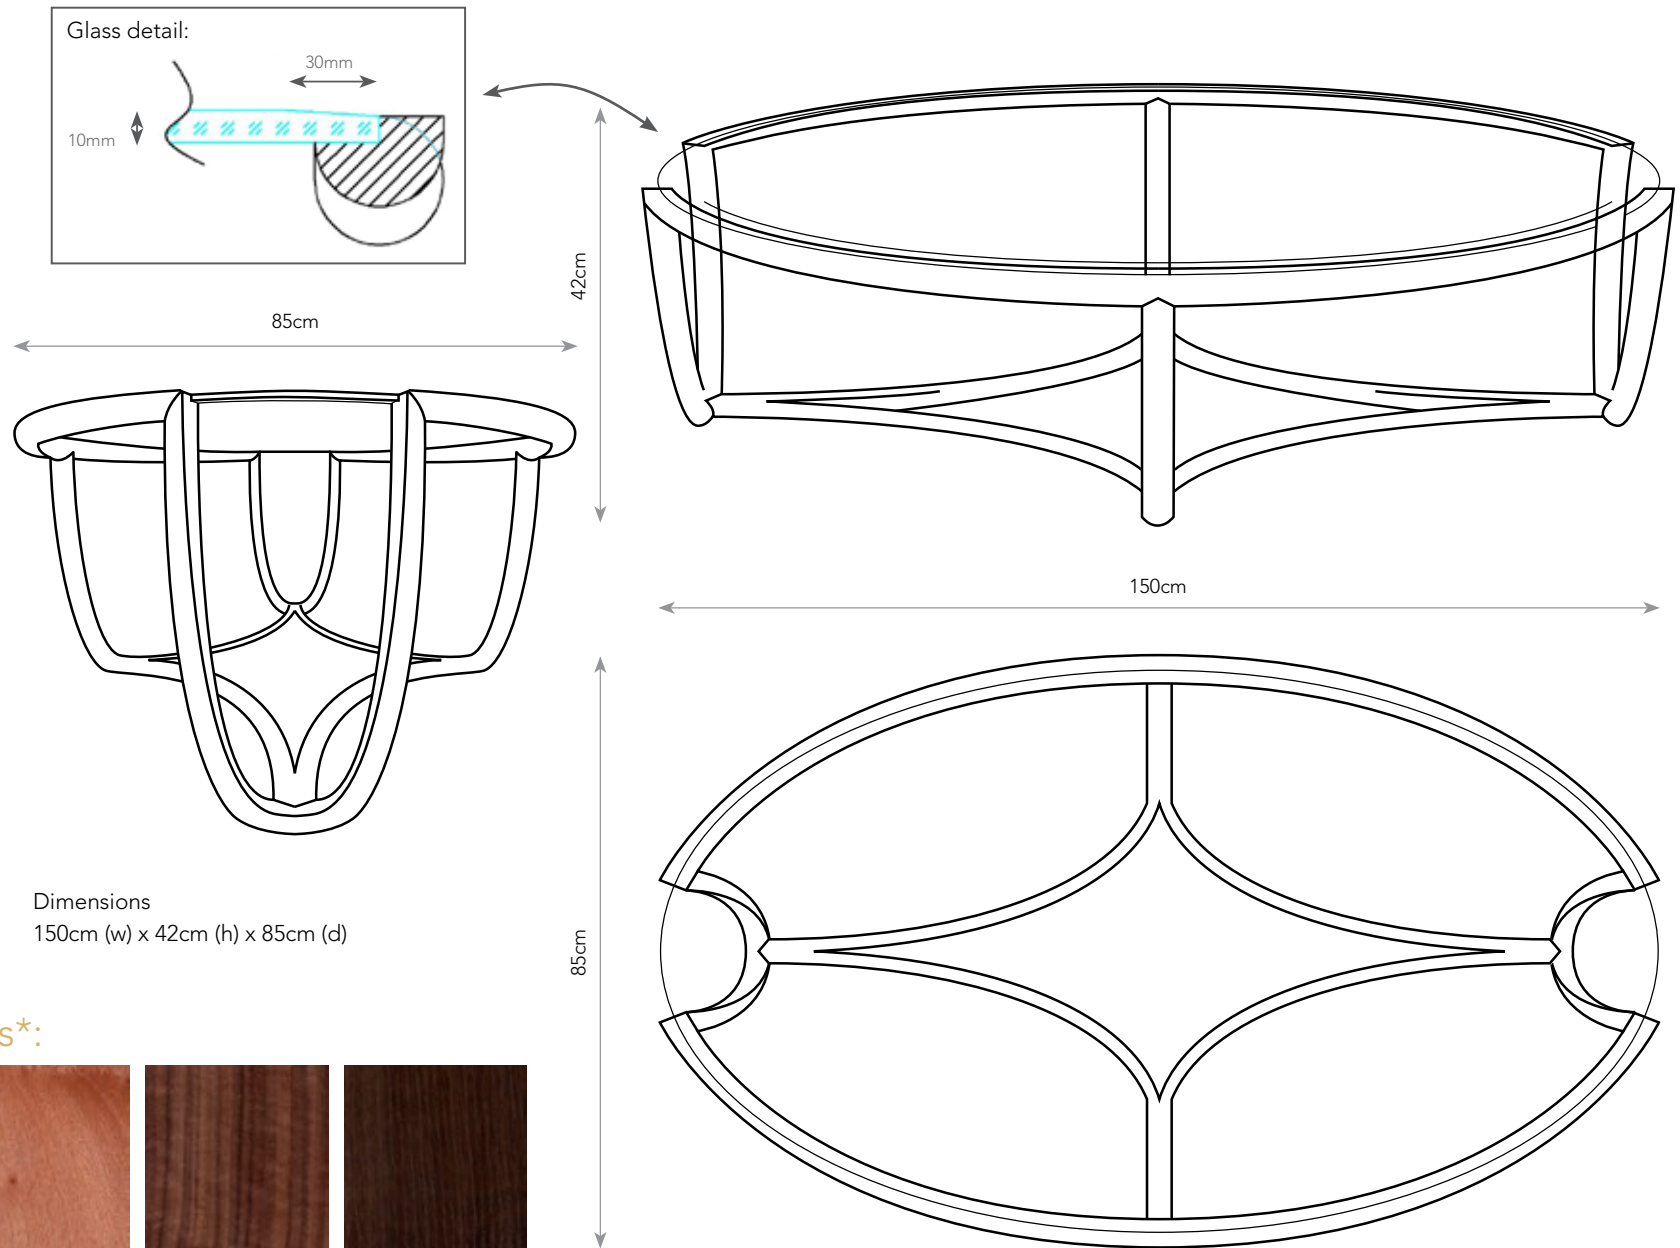

COFFEE TABLE: Ref. 1949

This elegant oval coffee table forms part of Edward's Sussex Collection. It is defined by its clean elegant curves that appear simple and smooth on the eye, yet complex to design, shape and sculpt. Shown here in ash with a white oil finish the bevelled glass edge is fully revealed at each end of the table, where the elliptical line is broken and dips into a curved motif that forms two of the legs. The two remaining legs flow into the convex diamond-shaped base, that is also beautifully curved and shaped.

Limited-edition of 5.
